PROFESSIONAL EXPERIENCE

Frontend Developer, Softfix Technologies OPC Private Limited, Lucknow	Feb 2024 — Sep 2025
<ul style="list-style-type: none">Developed interactive user interfaces using React.js and Next.js.Implemented RESTful APIs and integrated backend services with Node.js and Express.js.Enhanced application performance and responsiveness through optimization techniques.Collaborated with cross-functional teams to design and deliver scalable applications.Maintained version control and project management with Git and GitHub.	

PROJECTS

Delivez (Shipment Tracking), React Js

Built a large-scale logistics web platform with key modules like Customer, Inventory, Dispatch, and Delivery, delivering real-time shipment tracking and route optimization. Integrated Ola Maps and Google Maps APIs for accurate location and live route visualization. Optimized front-end performance using reusable React components and scalable state management with Redux and Context API to handle complex real-time data.

Kardify.in (E-Commerce Platform for Car & Auto Parts) , Next.js & Node.js

Developed the Kardify website using Next.js, creating fast and responsive web pages optimized for SEO. Created and tested key backend APIs using Node.js and Express.js for user authentication, product listings, and order management. Integrated payment gateway APIs for secure checkout and collaborated with frontend developers to ensure smooth data communication.

Ultraradai.com (Radiology Services Website) , React Js & Next js

Built a modern, responsive radiology service platform using Next.js and TailwindCSS for fast, mobile-friendly performance. Enhanced user experience with smooth animations using Framer Motion. Integrated Razorpay for secure online payments and collaborated with backend developers to connect APIs for service listings and payment processing. Developed reusable components and ensured accessibility for seamless use across all devices.

UrbanDine, React Native

Developed **Urban Dine**, a cross-platform mobile app using **React Native (Expo)** for seamless restaurant table booking and food pre-ordering. Designed a clean, user-friendly UI with **React Hook Form** for smooth form handling and validation. Implemented real-time booking features and user authentication for a better dining experience. Focused on modular architecture and responsive design for performance across devices.
